Dance, Arrowwood School Auditorium Friday, August 28

A dance will be held in the Arrowwood School Auditorium on Friday, Aug. 28, under the auspices of the Arrowwood-Queenstown Junior Baseball Club, entrants from this section of the Province in the play-offs. One of the best Calgary orchestras, the "Calgarians", will provide real snappy music. This orchestra has what it takes to make any dance a success. Proceeds are to be used by the club to help pay expenses of travel, etc. during the series. Your support will be greatly appreciated by the boys, who hope to bring honors to this district.

U.F.W.A. NOTES

On August 10th, Mrs. T. T. Williams, assisted by Mrs. J. McRae and Mrs. F. House entertained the Arrowwood U. F. W. A. Thirty-six members were present and spent a most enjoyable afternoon. Mrs. R. F. Williams, Conventer for Health, gave a splendid report and read an article on Russia and Socialized Health. It was most enlightening and showed that the mothers of Russia take first place as far as medical care is concerned. At the present time Miss Agnes McPhail, of Ontario, is in Russia studying conditions and we eagerly await her report which will no doubt be available to the locals as she has always co-operated with our movement. Mrs. John Williams in her pleasing manner, reported for Home Recognition. She gave recipes for several colorful salads and the various hot biscuits to accompany them.

The grave situation in Spain was dealt with by Mrs. J. Jensen. Her paper was followed by a splendid discussion. Mrs. M. H. Ward reported on Education and gave an outline of the options that may be substituted for mathematics in the High School courses.

The Sunshine Committee presented Mrs. F. House, a recent bride, with a beautiful bouquet. At the conclusion of the business session the ladies enjoyed a nursery rhyme contest.

Mrs. J. S. Culp has very kindly invited the local to her home for the meeting on Sept. 3rd. All members and friends are cordially invited. Mrs. Thorsen will demonstrate Swedish poetry at this time. Orders for the new U.F.W.A. cook book may be placed with Mrs. Ellis. Prices are 75c and \$1.00.

Sharpe-Miller

A very quiet wedding was solemnized on Friday afternoon at 4 o'clock at the home of Rev. M. Ing, Calgary, when the daughter of Mr. and Mrs. Arthur E. Miller, of Queens town, became the bride of Mr. Roy W. Sharpe, also of Queens town.

Mr. Lester Miller gave his sister in marriage. The bride wore a white satin gown with slippers to match. Mr. and Mrs. Percy Stull were the attendants.

Following a honeymoon motor trip to Lewistown and Spokane they will return to take up their residence in Arrowwood. Mr. Sharpe has recently been appointed to the staff of the Arrowwood Consolidated school.

NOTICE

The Arrowwood Social Credit Group (Men's) will hold its regular meeting on Wednesday, Sept. 2nd, at 8 p.m. in the Lock Building. Election of officers and other business will be dealt with and a good attendance is requested.

United Church Notes

11.45 a.m. Morning worship Subject of Sermon: "Does the United Church believe in the doctrine of Regeneration."

Not long ago a woman, not of the United Church, attended a United Church service in which some reference was made to the necessity of a change of heart. A few days later she said to the minister: I was surprised to hear that kind of teaching from a United Church pulpit. The minister has since been wondering where people are getting their information about the doctrines of the United Church and will on Sunday morning undertake to state the true position of said Church in this very vital question of Regeneration or New Birth.

Baseball - Semi-finals

Hillcrest Jrs. vs. Queenstown Arrowwood Jrs. at Arrowwood Friday at 2 p.m. and 5 p.m.

Arrowwood-Queenstown Juniors Drawn Against Hillcrest

For the first time in the history of Arrowwood, baseball fans will be able to witness play-off ball on the local diamond. During the past few weeks plans have been made to hold one of the strongest Junior teams possible from this section of the country.

Under the management of E. L. Campbell of Queenstown, Juniors from both Queenstown and Arrowwood have been signed up, and a team has been developed that is worthy of your support.

On Friday, Aug. 28th, (tomorrow) this Junior team will be seen in action against the Hillcrest Juniors. The Hillcrest team is the strongest team in the Crown West Pass, and are reported to be after the Championship of Alberta. Two games will be played, one at 2 p.m. and one at 5 p.m., and we can assure you that a very fine class of baseball will be displayed. It is hoped a large crowd of fans will be present to witness these games and to encourage the local boys.

Following is a complete list of players signed up: Casey Norton, Irwin Scott, Neal Dumka, Jim Rubbelke, Hurley Williams, Leonard Williams, Ab Crellin, Lloyd Irwin, Keith McLaughlin, Frank McLaughlin, Able Segal, Floyd Cary, Raymond Clemmons, Forrest McCallum, Leroy Richards and Gordon Mowatt.

Queenstown Loses Semi-final Games to Brooks

Queenstown won the first game of a double-header played in Queenstown Sunday against Brooks by a score of 6-1, but dropped out of the Alberta Intermediate play-off picture when Brooks nosed out a 4-2 win in the second game to clinch the 5 game series and qualify to meet Staveland in the Alberta Championship finale. Brooks had previously won 2 games at home by scores 13-11 and 2-1. A curious feature of the series is that in the 4 games each side scored a total of 20 runs while the losers outthrew the winners 41 to 30. Queenstown lost the series through errors, being charged with the grand total of 27 misplays in the series against 7 by Brooks.

In Sunday's opening game Queenstown held the upper hand throughout, behind Ernie Pittman's 6-hit pitching. Brooks led 3 pitchers, Rasmussen being tapped for nine hits, six of them being bunched in the 2nd inning to account for 4 runs, before he retired in favor of Nelson who allowed 4 hits in the 7th inning he worked. Two batters were hit by Lahd, Rubbelke, Pittman and McLaughlin of Queenstown, and Wood of Brooks. Brooks completed a nice double play in the 8th, involving on Sol's grounder, Holton to Martin to Woods.

Brooks-000100000-1 6 2 Q'town-04020000 0-13 4 Brooks-Rasmussen p, Nelson p, r, Burrows c, Wood 1b, Hol-

ton 2b, Jenkins 3b, Martin ss, Connors lf, Bishel cf, Sturm rf Queenstown-Pittman p, Rubbelke c, Sol 1b, Lahd 2b, Thompson 3b, Assestine ss, Mallett lf, Stull cf, McLaughlin rf

Brooks pushed over four runs in the 1st inning of the night-caps to some poor infield playing behind Ab Crellin. This was the only inning that Brooks could score in. Crellin pitched 6-hit ball, but Queenstown could collect only 5 safeties off the left handed slants of Bishel, Burrows, Holton and Lahd hit 2-baggers in this game. Queenstown completed a fast double play in the third inning on Burrows grounder, Assestine to Lahd to Sol. Queenstown got 2 runs in the fourth and threatened to tie the score but Brooks pulled a double play on Pittman's grounder, or retiring the side. Queens-town got two men on base in 7th inning and again in the 8th but were unable to score.

The Partnership that has heretofore existed between Lawrence Larsen and Omer Larsen as Larsen Implements is dissolved. Lawrence Larsen will pay all accounts contracted by Larsen Implements, but will not be responsible for future debts other than those contracted by Lawrence Larsen.

Dated at Arrowwood, Aug. 27, 1936, Lawrence Larsen

Meeting of Arrowwood Business Men Well Attended

A meeting of the business men was held in the Locke Building on Thursday, August 20th, when some fifteen were present. The express purpose of the meeting was to try and facilitate the handling of Prosperity Certificates.

Some difficulty had been encountered by persons being handed credit slips, in place of change, for this new medium of exchange. It was unanimously agreed that if everyone would treat the Prosperity Certificate the same as the present currency and give change, the difficulty would disappear and there would be no question about the public accepting them. Mr. Schultz moved that this evening of handling the certificates be tried, at least up to the 1st of September, then should it not work satisfactorily, some other method would have to be devised.

Success of the plan, everyone realizes, is a mere matter of co-operation, and if each one did his part there would be no difficulty in keeping all the certificates in our own district. The merchants do not object to stamping the certificates providing they are kept in circulation, so it is up to the public to see that they make a complete circuit, at least once a week.

Just before going to press, enquiry was made regarding progress since adopting the "change" plan as proposed above. Information from all sources is that everything is now running smoothly, in fact most people are not even looking any more to see if their change consists of dollar bills or Prosperity Certificates.

Brothren Church Notes

11.30 a.m., morning worship, speaker Rev Clarence Brubaker. 8.00 p.m., evening worship, speaker, Rev. J. H. Brubaker.

The Search For Economic Safety

One frequently hears it said nowadays that the subject of economics should find a place, and an important place, on the curriculum of the public and high schools.

The proposal has arisen, no doubt, out of the depression from which the countries of the world have been suffering and their populations groping more or less in the dark in the form of a hodgepodge way of the financial and economic difficulties which are besetting them and from which apparently a slow, but it is to be hoped a sure, emergence is in progress.

It is urged that matters pertaining to currency and credit are complicated and that the average person arrives at the so-called age of maturity and discretion with very little knowledge to guide him on topics which, after all, are of great importance to everyone. Even the fundamental principles are obscure to the average man, and this applies not only to the farmer on the land and the merchant in the country store, but to the average business man in the larger centers.

It is pointed out that after all it is the average elector who must decide what course his country, his province or his community must take through what, to the great majority, is an uncharted sea, at any rate uncharted and unknown so far as they are concerned. It is the average elector who goes to the polls and gives direction, through his vote, to his representative who naturally feels that it is incumbent to carry out the mandate thus conferred upon him.

And in recent years, as a result of general and local conditions, these mandates have largely taken the form of instruction in what policies should be pursued in regard to questions respecting the uses of currency and credit and the forms they should take. These have lately become important issues in elections, both in restricted community areas as well as in the wider provinces and nations, not only in this country but in the majority of countries in the civilized world.

This being the case, it is highly important that the electorate should be well posted on the subject of instruction in what policies should be pursued in regard to questions respecting the uses of currency and credit and the forms they should take. These have lately become important issues in elections, both in restricted community areas as well as in the wider provinces and nations, not only in this country but in the majority of countries in the civilized world.

Unfortunately this is not always the case. One hears a great deal of discussion on economic topics and various groups are gathered together. Some of the contributions to these discussions are based on sound facts and known principles and some, on the contrary are based on pure theorization and largely inspired only by a very natural desire to try something which may prove a panacea.

Equally unfortunately, however, there is always the risk of an unformed electorate, or an electorate not well grounded in fundamentals, rushing into some experiment which might prove to be disastrous in its effects and result in stepping "out of the frying pan into the fire."

These statements are not made with the intention of decrying experimentation in the economic field. On the contrary. The world and conditions in the world are changing almost daily. Progress must and will be made in this as in other spheres of life. In the field of medicine, in the field of science and in other departments of life, enormous progress has been made in recent years and largely as a result of experimentation, but usually it will be found that this progress has resulted by moving forward step by step along the path of construction on accepted fundamental facts. By these funds results are usually only achieved by workers who know and understand basic principles.

Fortunately the public is awakening to a realization that if they are to guide the destinies of themselves and their fellows successfully in the economic sphere many fundamental principles, rather than information, which to base their conclusions and to apply as tests. This is demonstrated by the tremendous increase in the sale of books and pamphlets on these and kindred topics in the last few years and in the increased demand for such works at the public libraries.

The greatest immediate danger that exists in this widespread demand for information is the possibility of confusion on the part of readers who are bombarded on all hands with unimproved theories; but this danger may be avoided, or at least partially offset, if the reader will search for definitely proven facts, in the light of history and experimentation, and proceed from there to build up his conclusions as to what may be safe and what dangerous. The proposal to make economics a more important subject of study for the youth of to-day in the schools is one that has considerable merit, but until a new generation is grounded in fundamentals and practical principles, the adults who are being called upon to determine policies for present day adoption must necessarily continue to seek guidance from available literature plus their own good common sense.

The Coronation Procession

Must Obey Or Suffer

Route As Arranged Will Be Longest Small Wonder Russians Do Not Look On Record

Official announcement of the route to be taken by the king's coronation procession on May 12, 1937, showed the drives to and from Westminster Abbey would be the longest, but this was not surprising, for the route was covering nearly twice the distance of the coronation route taken by the late King George.

The route will traverse no street twice, thus giving the enormous crowds expected from home and overseas ample opportunity to see the pageantry.

The route from Buckingham Palace to the west entrance of Westminster Abbey will be by way of the Mall, Trafalgar square, Whitehall and Parliament street. The return journey will be via Victoria monument, Northumberland avenue, Cockspur street, Pall Mall, St. James street, Piccadilly circus, Regent street, Oxford street, and Marble arch and Hyde Park corner.

The Champion Loser

Man Who Lost Millions By Selling Stock Too Soon

Among the many romantic aspects of the colossal growth of the Ford Motor Company nothing is stranger in all the history of finance, perhaps, than the large fortune made by James Couzens, and the huge loss suffered by Alexander Y. Macdonald, who was Ford's principal backer. Senator Couzens made 29 million dollars; poor Macdonald, cheapest himself of close to 300 millions. Instead of becoming one of the world's richest men, he sold his stock for a mere pittance.

The Ford Motor Company was incorporated on June 16, 1903. Fifty-one per cent. of the stock issue of \$100,000 was split evenly between Henry Ford and Alexander Macdonald. Among the other stockholders were Couzens, who owned only a clerk in the coal business conducted by Macdonald, who subscribed \$2,500 and the Dodge brothers, John F. and Horace E., who contracted to build the Fords in their machine shop and who each got a \$5,000 interest in the Ford company.

In 1908, Macdonald sold his \$25,000 worth of stock to Ford for \$175,000 and probably thought he was doing handsomely inasmuch as he had increased his original investment six times in three years. But wait—coupons hung on until 1919, a year in which the company's profit was close to 70 million dollars. The Ford family bought Couzens' stock of \$2,500 and paid him 20 what policies should be pursued in regard to questions respecting the uses of currency and credit and the forms they should take. These have lately become important issues in elections, both in restricted community areas as well as in the wider provinces and nations, not only in this country but in the majority of countries in the civilized world.

Macdonald's loss was not only financial history as the toughest loss on the books; as a man who stood to gain the largest profits on record but did not have the patience or the wisdom to wait thirteen years longer.

Dream Highway Progressing

Proposed Road Between Alaska And South America Being Developed

The "dream highway"—a good road from Fairbanks, Alaska, to Buenos Aires, Argentina, 12,000 miles away—is being developed, but there would have been the patience or the wisdom to wait thirteen years longer.

A tourist from Vancouver can now drive over well-paved roads as far as Mexico City, 3,600 miles, or little more than once the mileage in miles that will be available for him when the Pan-American highway is finally completed. The same highway, however, extends an additional 500 miles northward in British Columbia to Hazelton, B.C.

Of this definite line to be completed will be from Mexico City to Panama, of which 165 miles to Tehuacan is already paved by motor.

Another difficulty in the making of the highway will be the construction of a 400-mile stretch of road through jungle and mountain from Panama City to the Colombian border in South America.

Built America has considerable stretches of excellent road, with occasional rough and rugged patches. In Peru, a good road is laid down the northern border of Chile. From there to Santiago in Chile the motorist can travel on another highway 1,377 miles.

From Santiago, a road leads eastward over the Andes mountains, a highway constructed under incredible difficulties and open only in summer. At Mendoza in the Argentine the road runs for 400 miles to the highway which carries on for 850 miles to the southern terminus of the "dream highway," Buenos Aires.

Stages A Surprise

Geyer In Yellowstone Park Batters His Own Record

The longest and shortest intervals between eruptions of Old Faithful Geyser were recorded at Yellowstone Park, Wyoming, recently. The usually reliable geyser spouted once every 11 minutes and 16 seconds on action again at 12:26 p.m., a wait of only thirty minutes. Then followed an interval of 92 minutes and 1:38 p.m. Old Faithful seldom varies from 65-minute intervals between outbursts.

What nation produces the most marriages? Fascination.

More than 6,750,000,000 people of mass passed through the British post office department in the last year.

England's average annual income per capita is about \$250.

Predicts Long Drouth For U.S.

Weather Men Would Move 50,000 Families From Dry Area

Migration of 50,000 families from the drought-damaged farms of the great plains of the United States was recommended in a population survey of that area by Dr. C. W. Thornthwaite, former University of Oklahoma climatologist.

His study, published by the University of Pennsylvania, contended wind erosion had damaged 60 per cent of the plains region, extending from the Canadian border into the Texas Panhandle.

A long-range government program for the return of millions of acres of wheat land to its native sod, he said, might be the only means of checking the devastating dust storms.

Observing long, dry spells have been frequent in the history of the plains, Thornthwaite predicted "the present drouth might be prolonged for 20 or more years."

Evidence from tree rings, lake levels and other sources was cited in the survey to show a 40-year drouth began in 1857 and was interrupted by only occasional wet years.

But the weather expert estimated that a minimum of 15,000 families should move out of Montana, the state in which he reported the greatest "surplus population." He urged a migration of 12,000 families from Texas and 7,500 from North Dakota. Heavy removals also were suggested for South Dakota, Nebraska, Oklahoma, Wyoming and Colorado.

"The ideal situation in the great plains," he said, "would be a practically complete return to a grazing economy where pasturing on the range is supplemented by the raising of feed and forage crops."

Newspaper Favors

Many People Who Are Expecting Something For Nothing

We have often reflected upon the slowness of people to thank editors for the favors which newspapers do for them. Individuals and organizations are constantly asking for publicity to assist them in promoting their kind of worth causes.

Space is the only commodity aside from circulation which publishers have to sell, and this is a fact which too many seem to forget. Some are even critical of the favorable notices which we give them and their projects. A still greater number forget to make any acknowledgment of the courtesy extended to them. We have in mind a libelous instance of ingratitude in which only one in five was thoughtful enough to return with thanks on his lips and in his face—Toronto Mail & Empire.

Leaves Estate To Secretary

Fleet Street Writer Gave Fortune To Lifelong Friend

The estate of Arthur Anthony Baumann, London, one of the best known of Fleet street writers, was probated at £86,000 (\$430,000). He left practically all of it to his secretary, Miss Edith Brown, George Browning. Both were bachelors and lived together for 48 years. Baumann suffered paralysis for 12 years and Browning taught him to use his left hand. Baumann was 80; Browning is over 70.

New Revolver Tested

A new revolver of tremendous power, which J. Edgar Hoover says might wreck an automobile engine with a single shot, is being tested by the United States bureau of investigation which he heads. The gun, 44 to 48 ounces, inflicts a large wound and the impact of a bullet from it was said to have force of 802 pounds.

The regular service type of the gunny family are getting along well together.

"Do you know why your stories aren't a success?" "I can't imagine!" "Yes, that's the whole trouble."
